Editorials

Why Substitutes? 9

Scraping Bottom 9

Feature Articles

Solvent Extraction Successfully Applied
By Clarence F. Eddy 11

Corn Oil: Its Preparation and Usefulness
By G. A. Moore 15

Shortening and Oil Production 17

Orthodichlorbenzene—An Ideal Fat Solvent
By J. Ehrlich 19

Determination of Total Fatty Acids
By A. K. Church 23

The International Situation in Oilseed Crushing
(Part III—Conclusion) By Frank Messenger 27

Notes of The Industry 33

Abstracts: David Wesson, *Abstract Editor* 37

Editorials

Legislative Sharpshooting 49

Avoiding the Obvious 49

Feature Articles

A New Method for the Examination of Textile Oils—In Two Parts—Part I.
By Ralf B. Trusler 51

The Determination of Water in Glycerols
By L. F. Hoyt and P. C. Clark 59

Detergents Committee Reports Progress
By James G. Vail, *Chairman* 63

Margarine Legislation Hearings in Washington 65

Impressions of the European Soap Industry
By Archibald Campbell 67

Notes of the Industry 71

Editorials

A Service Opportunity 89

From Him Who Hath Not 89

Feature Articles

The Oil Mill Industry in Modern Germany
Part I. By Coke S. Rice 91

600684

California Mill Varies Raw Materials
By D. A. Phillips 95
Vegetable Oil Tariff Hearing at Washington 99
Oil Chemists' Annual Meeting 101
A New Method for the Examination of Textile Oils. Part II. By Ralf B. Trusler 103
Vitamins and Palm Oil in Margarin
By Albert K. Epstein 107
Notes of the Industry 111
Census Report for Fourth Quarter, 1930 115

Editorials
A Colonial Policy 129
Encouraging Progress 129

Feature Articles
Philippine Copra and Coconut Oil
By George W. Hipp 131
The Oil Mill Industry in Modern Germany
Part II. By Coke C. Rice 135
Twenty-second Annual Oil Chemists' Meeting 139
Lecithin Retards Hydrolysis of Fats
By Ralf B. Trusler 141
Margarine Taxation Made More Burdensome 145
Factory Consumption of Fats and Oils
by Industries 147
Notes of the Industry 149
Abstracts: David Wesson, *Abstract Editor* 155

Editorials
A Menace to Oil Crushing 169
Science—Pure or "Commercial"? 169

Feature Articles
Oil Chemists' Program Completed 171
Rapid Development of Tung Oil Plantations 173
The Oil Mill Industry in Modern Germany
Part III—Conclusion. By Coke S. Rice— 135
Margarine and Butter:—The Unvarnished
Facts. By David Wesson 179
Report of Olive Oil Committee for 1930-1931.
By M. F. Lauro, *Chairman* 181
Laboratory Bleaching Technique of Fatty Oils
By J. T. R. Andrews and R. G. Folzenlogen 183
Carbohydrates Affect Mill Values of Cotton-
seed. By G. S. Meloy 187
Smalley Foundation Analytical Results
By A. W. Putland, *Chairman* 191
Notes of the Industry 194

Editorials

Tomorrow's Oil Mill 209
Progress in Oil Chemistry 209

Feature Articles

Richardson Elected Chemists' President 211
President's Convention Address
By W. H. Irwin 215
National Cottonseed Convention 218
Technical Emulsions of Oils and Waxes
with Water—By H. Bennett 219
Brazilian Lard Trade in Rio Grande do Sul 222
Anti-oxidants in Edible Oil Preservation
By F. C. Vibrans (Part I) 223

Fat and Oil Data for 1st Quarter, 1931 229

Abstracts: David Wesson, *Abstract Editor* 233

Notes of the Industry 234

Editorials

Wanted: A Way Out 249
A Whale of a Problem 249
Light on Ancient Customs 250

Feature Articles

Some Aspects of Seed Grading
By Andrew K. Schwartz 251
Sapote (Mammy Apple) Seed and Oil
By Geo. S. Jamieson and R. S. McKinney 255
Soap Analysis Committee Report
By H. P. Trevithick, *Chairman* 257
Anti-oxidants in Edible Oil Preservation
Part II—By F. C. Vibrans 263
Margarine Regulations Amended 265
Secretary-Treasurer's Annual Report A.O.C.S. 267
Report of Kreis Test Committee
By A. S. Richardson, *Chairman* 269
Refining Test Committee Report
By C. B. Cluff, *Chairman* 271

Abstracts: David Wesson, *Abstract Editor* 262

Notes of the Industry 273

Editorials

Truth Out of Iowa 289
Setting the House in Order 289

Feature Articles

Susceptibility of Fats to Oxidative Rancidity
By D. P. Grettie and R. C. Newton 291
Oilseeds Industries in the British Empire 295
Glycerine Analysis Committee Report
By J. T. R. Andrews, *Chairman* 297

Cottonseed and Oil Stocks Sharply Down 302
Report on Tintometer Standardization
By W. D. Hutchins, *Chairman* 303
Kapok Oil and the Halphen Test
By H. P. Trevithick and W. H. Dickhart 305
Census Summary of Fats and Oils 307
Solvent Committee Revises Specifications
By R. H. Fash, *Chairman* 311
Notes of the Industry 313
Abstracts: David Wesson, *Abstract Editor* 315

Editorials
Management or . . . Muddling 329
Production Only Deferred 329

Feature Articles
Rancidity and Stability in Shortening Products
By W. O. Pool 331
Oil Chemists' Plan Autumn Gathering at
Chicago 337
Sampling Cottonseed at the Oil Mill
By E. C. Ainslie 339
Report of Moisture Committee
By N. C. Hamner, *Chairman* 342
Cost Accounting a Field for Chemists
By W. J. Reese 343
Review and Coordination of Committee
Recommendations
By John J. Vollertsen, *Chairman* 345
Fat and Oil Data for Second Quarter, 1931
(*U. S. Census Bureau*) 350
Notes of the Industry 353

Editorials
Oil Producers' Profits 369
Consider First 369

Feature Articles
Oil Chemists' Fifth Annual Fall Meeting 371
Rancidity Accelerated by Porous Packings
By William Rabak 373
Copra and Coconut Oil in the Netherlands
East Indies
By Carl H. Boehringer 377
Oil Chemists' Committees 381
Forming and Pressing Cakes in the Oil Mill
By James G. Gibson 383
Hydrogenation Standardizes Quality of Lard
By M. H. Gwynn and Alan Porter Lee 385
Sesame Seed in China and India 389
A Micro-Kjeldahl Method for Nitrogen De-
termination
By W. F. Allen 391
Notes of the Industry 393

Feature Articles:

Oil Chemists' Fall Meeting 405

Mayonnaise Spoilage and Rancidity of Oil
By A. S. Richardson, E. W. Eckey and J. T. R. Andrews 409

Report of Detergents Committee
By James G. Vail, *Chairman* 413

Studies in the Comparison of Detergents
By W. H. Burkhart and Nils Falkman 416

Decolorizing Carbon Analyses and Tests
(In Two Parts—Part I) By M. T. Sanders 421

Feature Articles

The Circulating Rendering Process
By O. H. Wurster 432

Mayonnaise Oils, Mayonnaise and the Kreis Test
By A. G. Olsen and C. A. Southwick, Jr..... 437

Origin, Properties and Uses of Activated Carbon
By J. Wrench 441

Fats and Oils as Food for Man and Microörganisms
By L. B. Jensen 444

Composition and Polymerization of Chinese Wood (Tung) Oil
By E. R. Bolton and K. A. Williams 447

Decolorizing Carbon Analyses and Tests (In Two Parts—Part II)
By M. T. Sanders..... 449
